Kirtlington Allotment Association Parish Report 2026

Kirtlington Allotments had a tough growing year last year. With the weather being so dry we ran out of water fairly early in the season. We have since installed another water collection tank.

We currently only have 2 ¼ sized plots available to rent with the rest rented out and being cultivated.

We will be holding a plant stall at the village fete again this year as last years proved popular. We will continue to have produce sales in August and September as well as our much-loved summer party in July.

Proceeds from our plant and produce sales continue to fund local projects and charities as well as much needed allotment equipment and water storage.
