Allotments Report

Kirtlington Allotments suffered the horrible event of our communal shed being broken into and the lawnmowers and strimmers being stolen. The culprits then went on to break into all the sheds on the allotment and steal power tools from personal sheds as well. The police attended and advised us on security – which we have followed up on with a camera, obvious signage and better quality padlocks. We are grateful to the Fete committee who allowed for a late application for funds to help with increased security and enabled us to service some donated replacement machines.

We have an orchard area, rainwater harvesting facilities and wildflower margins. We held sales of surplus produce and the money from this funded some allotment projects plus supported the reaching out community with funds towards their Christmas Lunch and a large donation to Macmillan Cancer Care.

We currently have a couple of spare plots and are advertising these on the village Facebook page and through the Village News.
